

Conference

INTERNET OF THINGS ENABLING TECHNOLOGIES FROM VIRTUAL NETWORKS AND CLOUD COMPUTING TO SMART INTEGRATED COMMUNICATION SYSTEMS

IoT – A HEALTH CARE PERSPECTIVE

**Morten Moland, CareTech AS ,
Norway/Sweden**

**02nd of April, 2014,
09:0-17:00, Telenor, Oslo, Norway.**

Auditorium Voice, Telenor Expo,
Snarøyveien 30, 1331 Fornebu

Presentation Outline

- ❖ Who we are
- ❖ Where do we fit in, in a IoT perspective
- ❖ Challenges with Technology & People
- ❖ Solution
- ❖ Demo

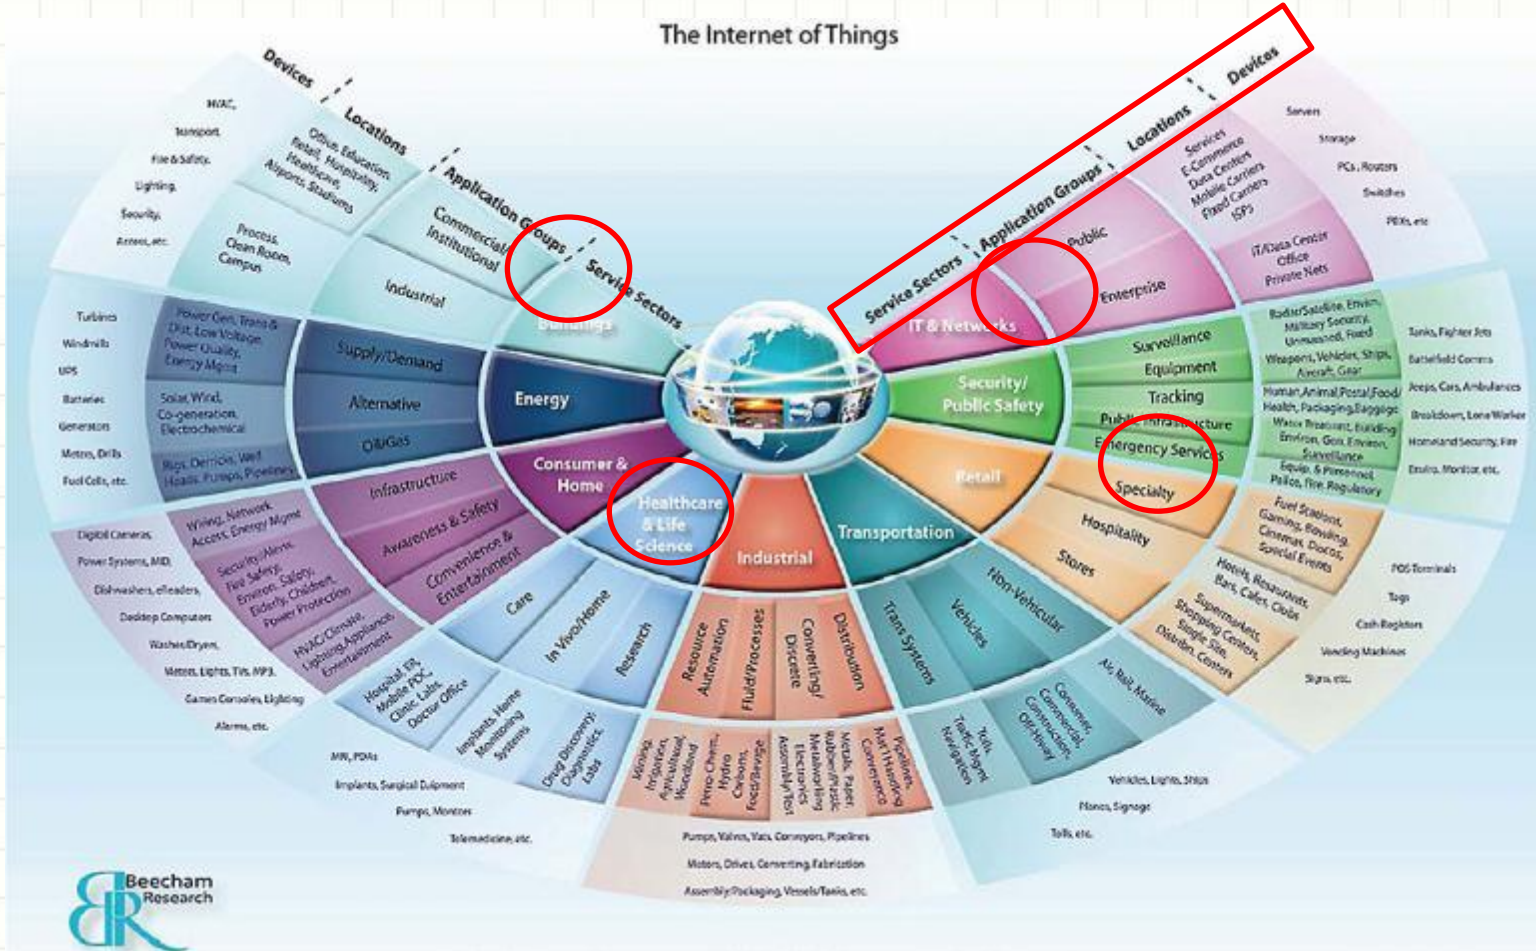

Introduction

- ❖ «Keeping Independence in The hands of People We love»
- ❖ We are 4 employees + 30 consultants on/off
- ❖ Our business, 20 + 8m
- ❖ Arena Helseinnovasjon
- ❖ Angle Investment & Public sector projects
- ❖ Business case is good no matter how you cut it £, \$ & €

Where does CareTech fit in ?

The Internet of Things

Care Technology & people challenges

- ❖ Care is very different from Healthcare
 - No process in place to adopt technology
 - Mission or charter not as clearly defined
 - Many good downpipe solutions but limited integrated solutions
- ❖ Mixed target audience and skills in the market
- ❖ Internet not always there

Solution

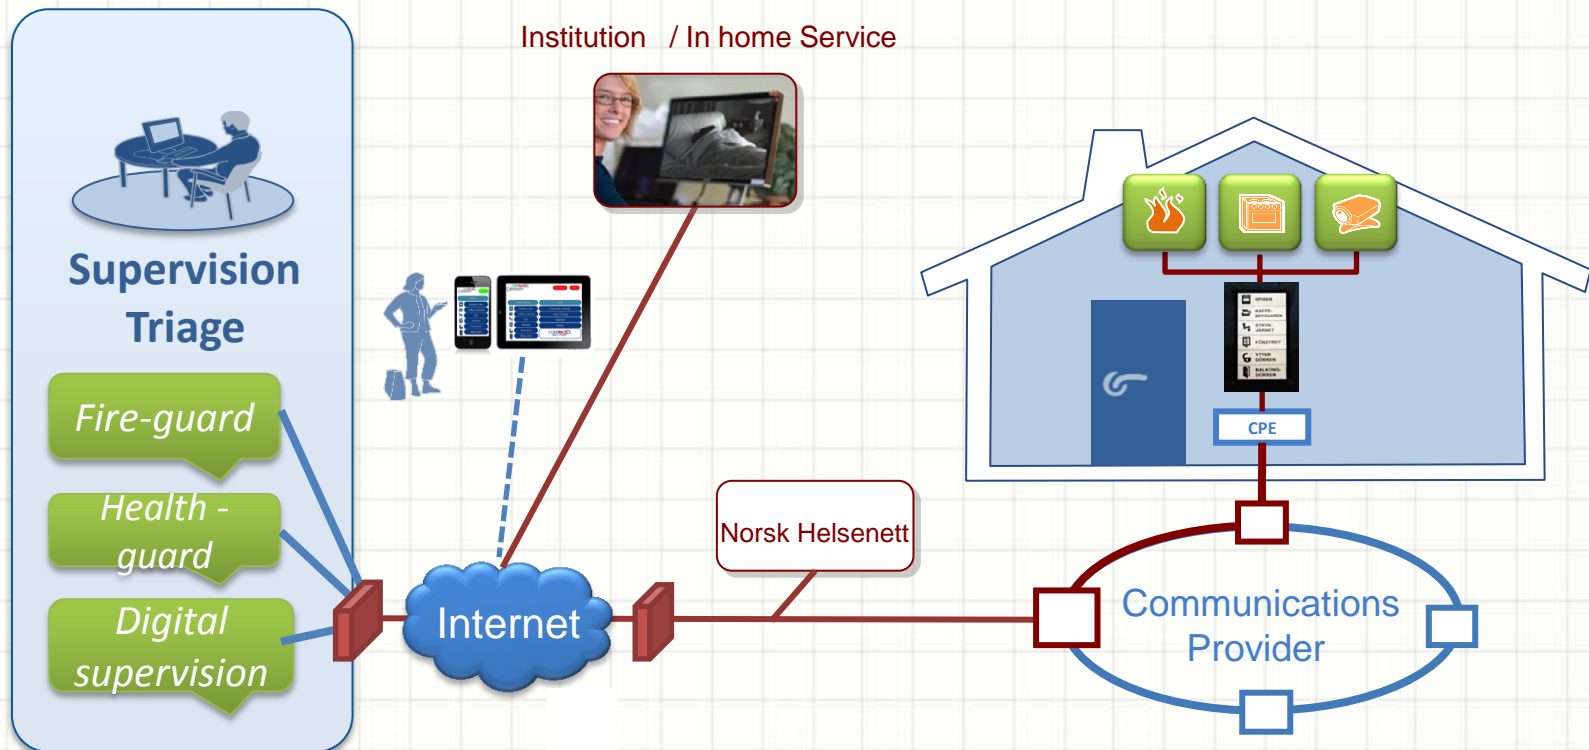

- ❖ Simple integrated solution that always work
- ❖ Holistic approach
- ❖ KISS

What we have done

- ❖ Adapt existing protocols and bus systems into a real time software translation....

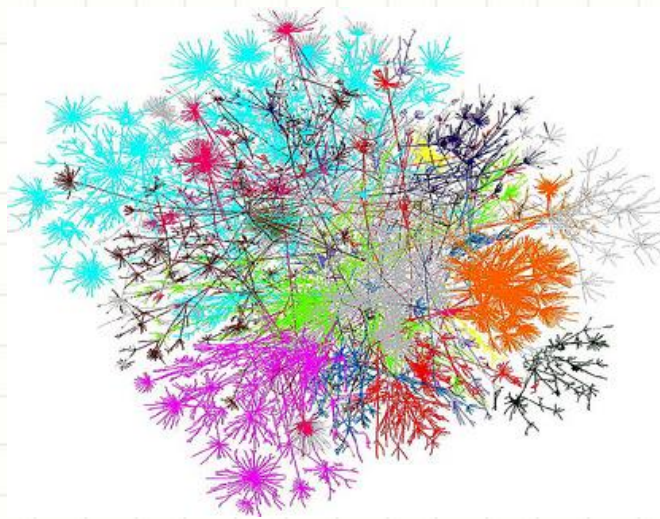

Demo

❖ [AALT™ Portal demo](#)

Thank You!

**INTERNET OF THINGS:
INTERNET OF ANYTHING, ANYTIME, ANYWHERE**
